Dear friends,

We are pleased to invite you to apply for the fully-funded professional training course on 'Multi-scale Integrated River Basin Management in the Hindu Kush Himalaya' from 19 August to 10 September 2022. The training includes physical sessions at the ICIMOD headquarters in Kathmandu, a field visit to the Koshi Basin, and an exposure visit to Australia. **The deadline for application is 15 July 2022. Applicants from Bangladesh, Bhutan, China, India, Pakistan, and Nepal are highly encouraged to apply!**

In collaboration with our partners – Griffith University, International Water Centre, Australian Aid, Alluvium, and Australian Water Partnership – we are targeting this training for professionals in mid to senior management positions working in river basin planning and related sectors.

The training focuses on Integrated River Basin Management (IRBM) approaches/processes and applications. It consists of eight modules, covering both conceptual perspectives and real-world examples of IRBM. During this training, the participants will learn about both biophysical and social science aspects of IRBM, which will enable them to understand the complex issues, impacts, and responses to water management throughout the diverse HKH river basins.

Please visit here for details: <https://www.icimod.org/event/professional-training-course-on-multi-scale-integrated-river-basin-management-in-the-hindu-kush-himalaya/>

To apply, please fill out this online form: <https://www.icimod.org/professional-training-course-on-multi-scale-integrated-river-basin-management-in-the-hindu-kush-himalaya-form/>
